NOUN

- Samostalniki so besede, ki poimenujejo osebe, stvari, kraje, pojme, čustva ...

- Obstaja več kategorij samostalnika in nekatere se lahko med seboj prekrivajo oz. lahko enemu samostalniku hkrati določimo več kategorij
- Npr. samostalnik je hkrati „concrete“ in „common“

CATEGORIES

PROPER NOUNS (oz. LASTNA IMENA)

- To so samostalniki, ki poimenujejo specifične stvari, osebe, kraj ... → Steve, Nebraska, Harvard, White House
- Običajno pred njimi ni členov → the London, the Mary
čeprav obstajajo izjeme → Is she *the Mary* that we met at the conference?
- Pišemo jih z veliko začetnico in jih tako tudi ločimo od common nouns (občna imena)

The whole family **was** at the table.
- V britanski angleščini jih lahko tretiramo tudi kot množino (kar je tudi bolj pogosto)
The whole family **were** at the table.
- Imamo pa nekaj samostalnikov, ki v obeh različicah angleščine nastopajo v množini – police, people
✓ *She's happy with the way the police **have** handled the case.*

npr. apple, boy, table, car
- Ti samostalniki nastopajo v edini in množini
npr. apple/apples, boy/boys, table/tables
- Pred števnimi samostalniki običajno stojijo t.i. „determiners“ (določni/nedoločni členi, svojilni pridevni, številke ...)

nedoločni člen A/AN → an apple, a boy

- Pred njimi nikoli ne stoji nedoločni člen A/AN
- Sledi jim glagol v ednini

This money isn't yours.

- Kadar želimo neštevne samostalnike šteti, moramo uporabiti posebno frazo oz. mersko enoto, ki se uporablja s to snovjo, npr.
 a glass of water
 a pint of beer
 a piece of advice
 a great deal of interest

ARTICLES

- V angleščini poznamo določne in nedoločne člene
- Nedoločna člena sta A/AN in ničti člen ter opisujeta neko splošno idejo in ne konkretnе stvari.
Če ponazorimo: „Should I bring a gift to a party?“ → Razumemo, da ni govora o specifičnem darilu ali stvari, ampak n splošno.
„I am going to bring an apple pie.“ → nedoločni člen nam pove, da ne govori o neki specifični jabolčni piti
Please hand me a book; any book will do.
Please hand me an autobiography; any autobiography will do.
- A stoji pred samostalniki, ki se začnejo na soglasnik, AN pa pred samostalniki, ki se začnejo samoglasnik
- Seveda obstaja izjema:
pri izbiri člena se moramo orientirati po izgovorjavi in ne zapisu, zato lahko pred samostalniki, ki se začnejo na soglasnik stoji AN oz. A pred samostalniki, ki se začnejo na samoglasnik
My mother is an honest woman.
I don't have a university degree.

an HR department specialist
a UK passport

- Pred nekaterimi samostalniki nimamo člena oz. stoji t.i. „ničti člen“
- To velja predvsem za abstraktne samostalnike oz. kadar govorimo o splošnih stvareh v množini
Let's go out for dinner tonight.
Creativity is a valuable quality in children.
I don't like to talk about war.

I love dogs.

People can be really mean sometimes.

- Določni člen za ednino in množino je THE
- Člen THE se lahko uporablja za vse samostalnike (ednina, množina, števni, neštевni)
Opisuje točno določeno stvar, ne nekaj splošnega. Če ponazorimo:
„Are you going to THE party this weekend?“ – to nam pove, da govorimo o točno določeni zabavi, za katero ve tudi naš sogovornik

Please give me the hammer.

Please give me the red hammer; the blue one is too small.

Please give me the nail.

Please give me the large nail; it's the only one strong enough to hold this painting.

Please give me the hammer and the nail
